

# Xpress Mail Personal Edition Email Set Up Guide

Xpress Mail Personal Edition provides wireless access to Internet Service Provider (ISP) personal email accounts such as Yahoo, Comcast, and Earthlink, as well as corporate email platforms such as Microsoft Exchange and Lotus Domino.

You can access both your personal and corporate accounts from your Nokia E62. Email messages are automatically delivered and you can send, receive, and reply to emails directly from your device. This guide explains how to install, open and register Xpress Mail on your Nokia E62.

You will need to have an eligible data plan to use Xpress Mail. Please contact Cingular at 1-866-CINGULAR (1-866-246-4852) to activate if you have not already done so.

## 1 Before You Begin

You will need to do the following to complete the set up of your Xpress Mail Personal Edition account.

### To set up personal email:

1. Complete the initial Nokia E62 device set up using the Getting Started Guide.
2. Find your ISP email account name and password.

### To set up corporate email:

1. Complete the initial Nokia E62 device set up using the Getting Started Guide.
2. Find the email platform your company uses (Microsoft Exchange, Lotus Domino or IMAP4)
3. Find your corporate email address and password.
4. You will need the computer used to access your corporate email and an internet connection.

Please complete all set up steps listed in this guide.

## 2 Installing Xpress Mail on the Device

To begin the Xpress Mail installation directly from your Nokia E62, follow the steps below.

1. Power on your Nokia E62 to connect to the mobile network (if not already on). You will know that your device is connected to the network when you see the signal bars (  ) in the upper left-hand corner of the device display. Your device needs to be in a network coverage area to continue.
2. Select the **Menu** key (  ) > **Email** > **E-mail inst.** to open the email installation application. Read the application information.
3. Select **Options** > **Installable clients**.
4. Scroll down to Xpress Mail (fig. 2.1), then select **Options** > **Install**.
5. Select **Install Now** to begin downloading Xpress Mail.

## 3 Installing Xpress Mail on the Device (cont.)

6. Select **Yes** when asked if you want to install Xpress Mail (fig. 3.1).
7. Select **OK** to accept the End User Software Agreement and to complete the installation.
8. You will see an "Installation Complete" notice when Xpress Mail has finished installing on your device.
9. Select **Options** > **Exit** to close the browser.

After you have installed Xpress Mail on your Nokia E62, proceed to panel 4 if you are setting up a personal email account or panel 5 if you are setting up a corporate email account.

## 4 Setting Up Personal Email with Xpress Mail

Follow these steps to set up your personal email account on your Nokia E62.

1. After you have installed Xpress Mail on your Nokia E62, open the application by selecting the **Menu** key (  ) > **Apps.** > **Xpress Mail**.
2. Enter your 10 digit mobile number (numbers only) and select **Options** > **Next** (fig. 4.1).
3. Choose your email service provider from the list displayed and select **OK** (fig. 4.2). If your email provider is not listed select **More** to view additional providers.
4. Enter your ISP username and password, then select **Options** > **Done**.
5. Xpress Mail will begin to synchronize your email with your Nokia E62. When complete, you will be redirected to your Xpress Mail inbox.
6. (Optional). Xpress Mail for personal email synchronizes email items ONLY. To synchronize your calendar and contacts, proceed with the Getting Started CD-ROM and select the option **Install Nokia PC Suite Only**. After installing Nokia PC Suite, select the **Synchronize** option and in the Settings menu uncheck the box for email so that your emails will not be duplicated on your device.

## 5 Setting Up Corporate Email with Xpress Mail

To begin the Xpress Mail set up for corporate email, you must first create an Xpress Mail account and download the desktop software.

### Using the browser on your PC:

1. Go to <http://xpressmailpe.cingular.com> and select **Register Now**.
2. Fill in the required fields on the **Account Activation** screen. You will be prompted to create an Xpress Mail username and password. Make note of the username and password as they will be needed later.
3. At the download page, select **Download** to select the desktop software.
4. Select **Open** or **Run** to begin the installation of the desktop software to your PC.
5. Select **Yes** when asked if you want to install the desktop software.
6. Select **Next** to begin set up and follow the on-screen instructions. When prompted, enter the username and password created in step 2 above.
7. When Xpress Mail has successfully connected to your corporate email account, the installed desktop software will minimize and you will be redirected to a web page with the message "**Congratulations. You are connected**" and will be prompted to complete the set up on your Nokia E62.

## 6 Setting Up Corporate Email with Xpress Mail (cont.)

After you have installed Xpress Mail on your device, created an Xpress Mail account and downloaded the desktop software to your PC, follow these steps to continue with Xpress Mail set up.

### From your Nokia E62:

1. Open Xpress Mail by selecting the **Menu** key (  ) > **Apps.** > **Xpress Mail**.
2. Enter your 10 digit mobile number (numbers only) and select **Options** > **Next**.
3. Select **Work**, then select **OK**.
4. Select **Personal** then select **OK**.
5. Enter your Xpress Mail username and password created earlier online, then select **Options** > **Done**.
6. Xpress Mail will begin to generate the encryption keys and to synchronize your email with your Nokia E62. When complete, you will receive a message that the process has been successful and be redirected to your Xpress Mail inbox.
7. (Optional). Xpress Mail for corporate email can also synchronize your calendar and contact items. Consult your Xpress Mail User Guide for instructions to enable calendar and contact synchronization. You can find this guide at [www.cingular.com/xpressmail](http://www.cingular.com/xpressmail).
